

Safety Turtle SOS Fact Sheet

"Safety Turtle SOS" is a version of the Safety Turtle personal immersion alarm adapted for workplace, marine, lifeguard and aquatic physiotherapy use by adults. While activating within one second of complete immersion, Safety Turtle SOS will not false alarm due to heavy, prolonged rain / splash that characterizes marine and some outdoor work environments.

Safety Turtle SOS sensors are fully compatible with existing systems. All sensors need to be the same color to work with one Base Station.

SOS sensors are somewhat larger than Turtle sensors.

SOS sensors are NOT recommended for young children.
